Every 1000 points = 1 STEP = 100\$ commissions

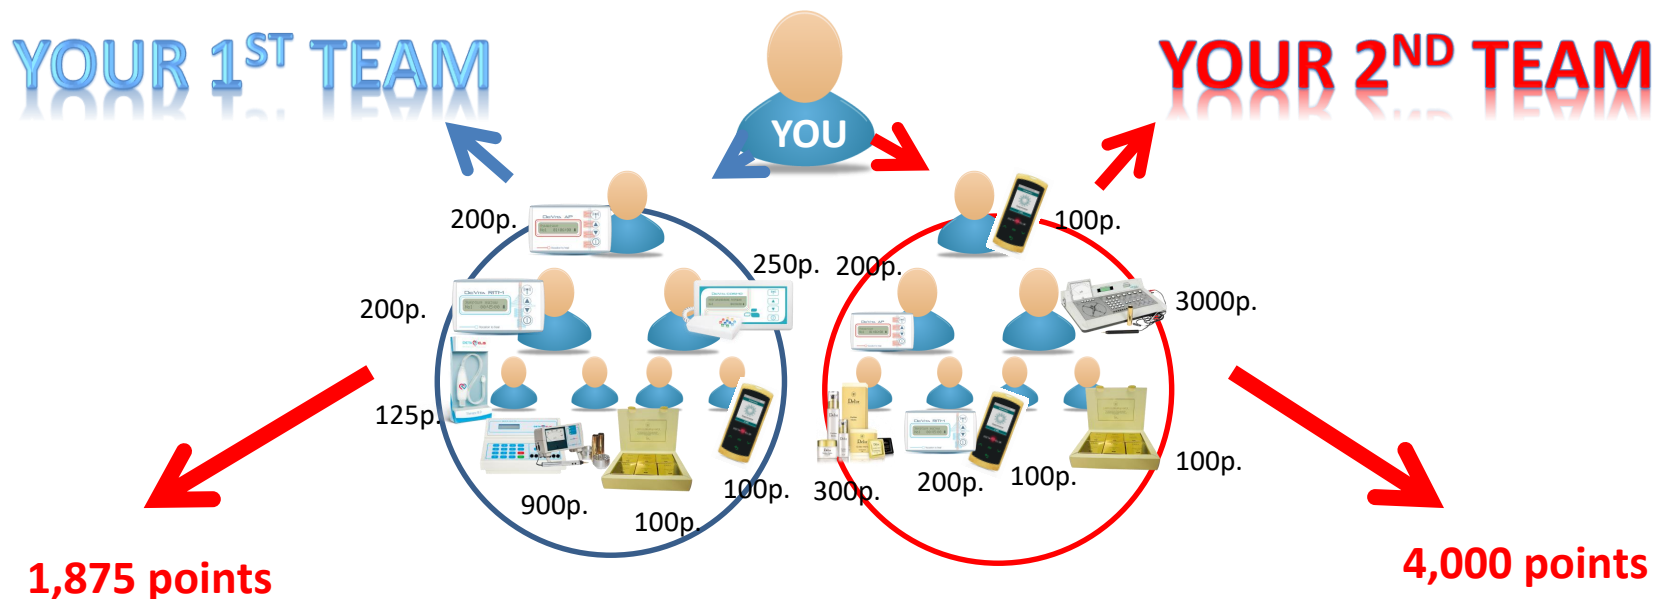

There are 3 different ways to make this STEP

1st way: 1st Team 500p. / 2nd Team 500p.

2nd way: 1st Team 700p. / 2nd Team 300p.

3rd way: 1st Team 300p. / 2nd Team 700p.

YOU ARE BEING PAID EVERY DAY, AS MANY STEPS AS YOU MAKE (no limit)!

So in the example above you have:
1,875 points gathered into your left team
&
4,000 points gathered into your right team

The same night you will receive Network Commissions for **5 Steps = \$500**

5 steps x 300 pts = 1,500 pts - taken From your Left Team
5 steps x 700 pts = 3,500 pts - taken From your Right Team

375 points will remain on your left team for a next payment
&
500 points will remain at your right team for a next payment

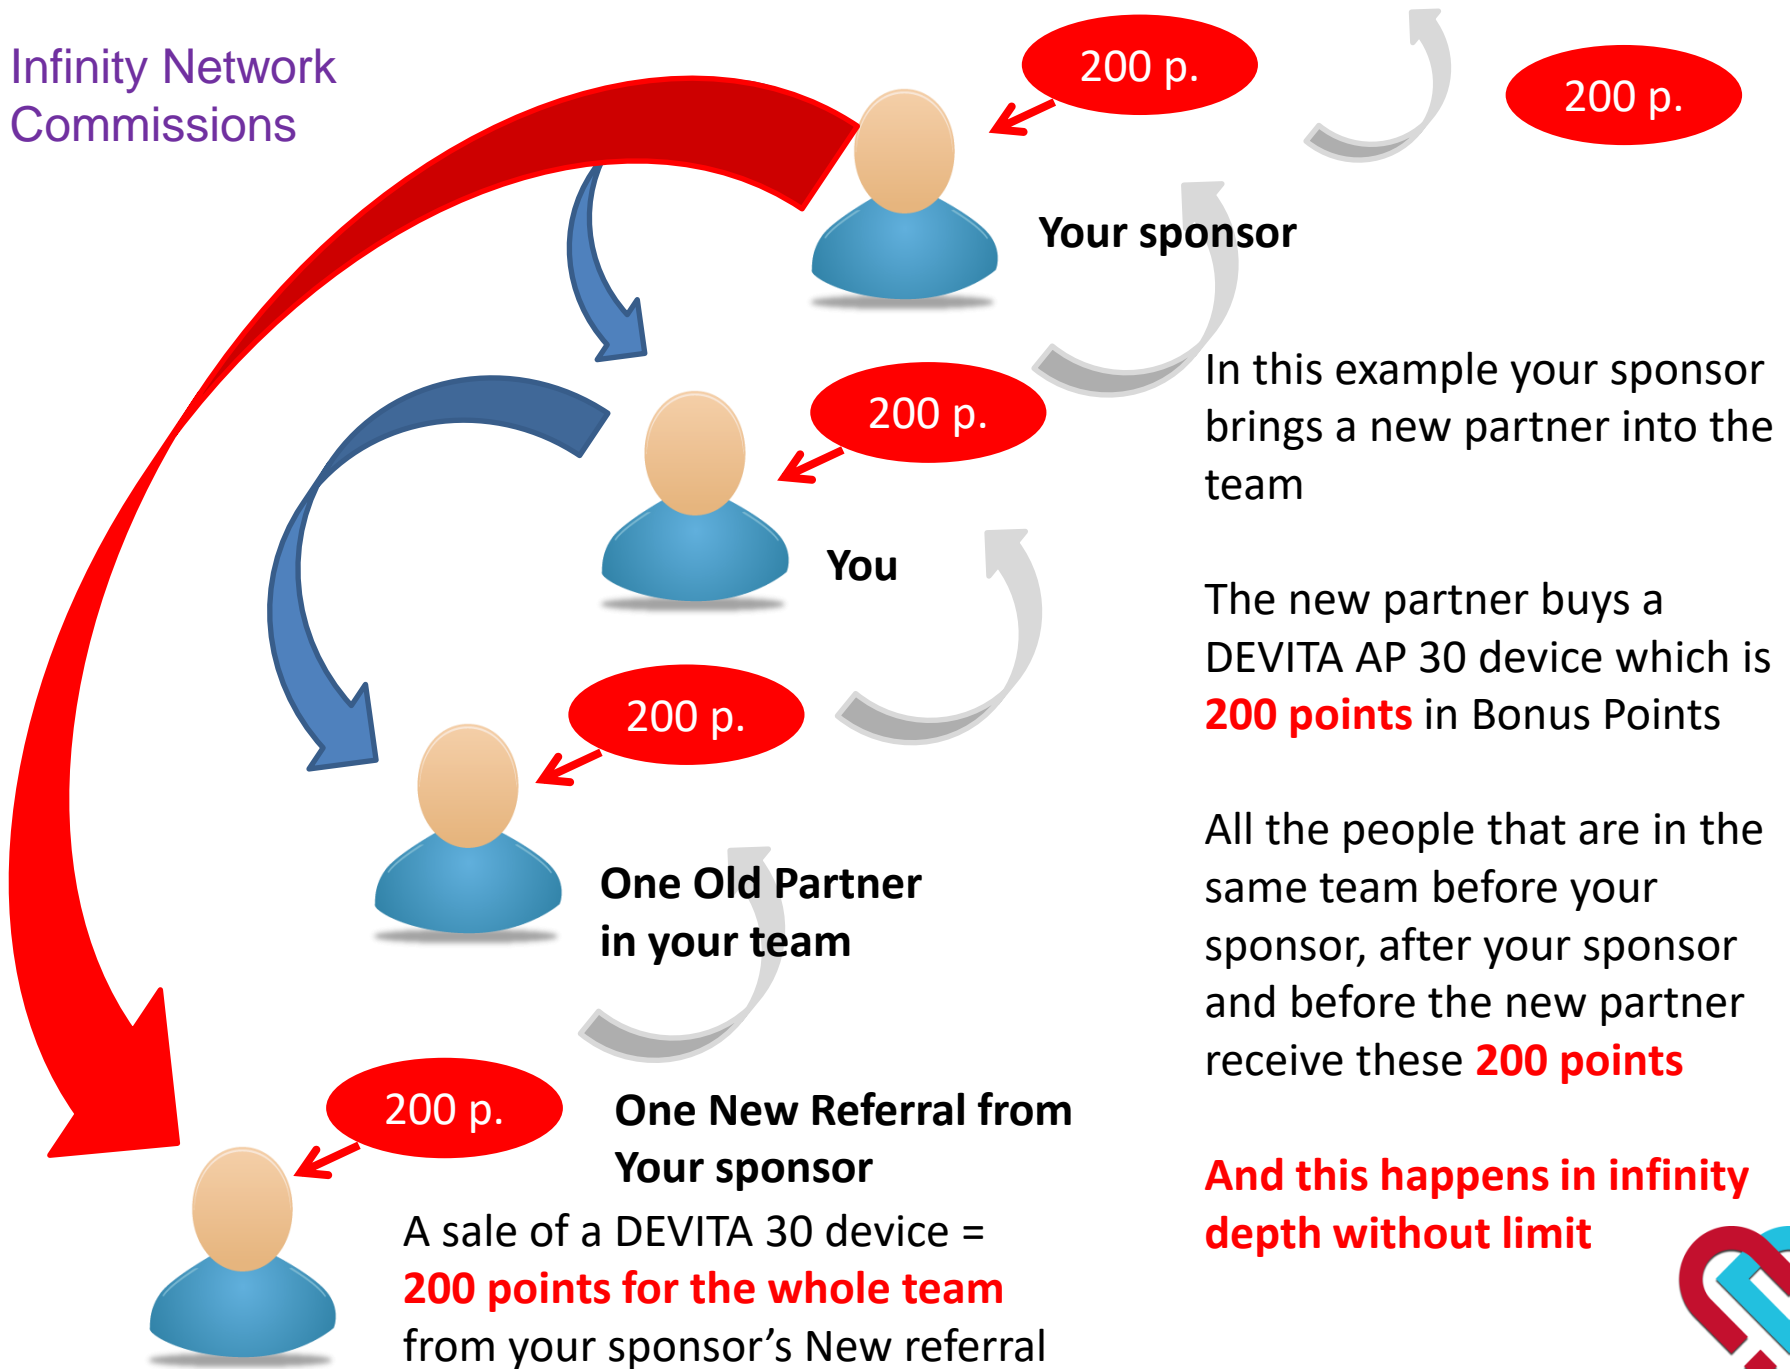

Receive Network Commissions in Infinity Depth and in Infinity Height

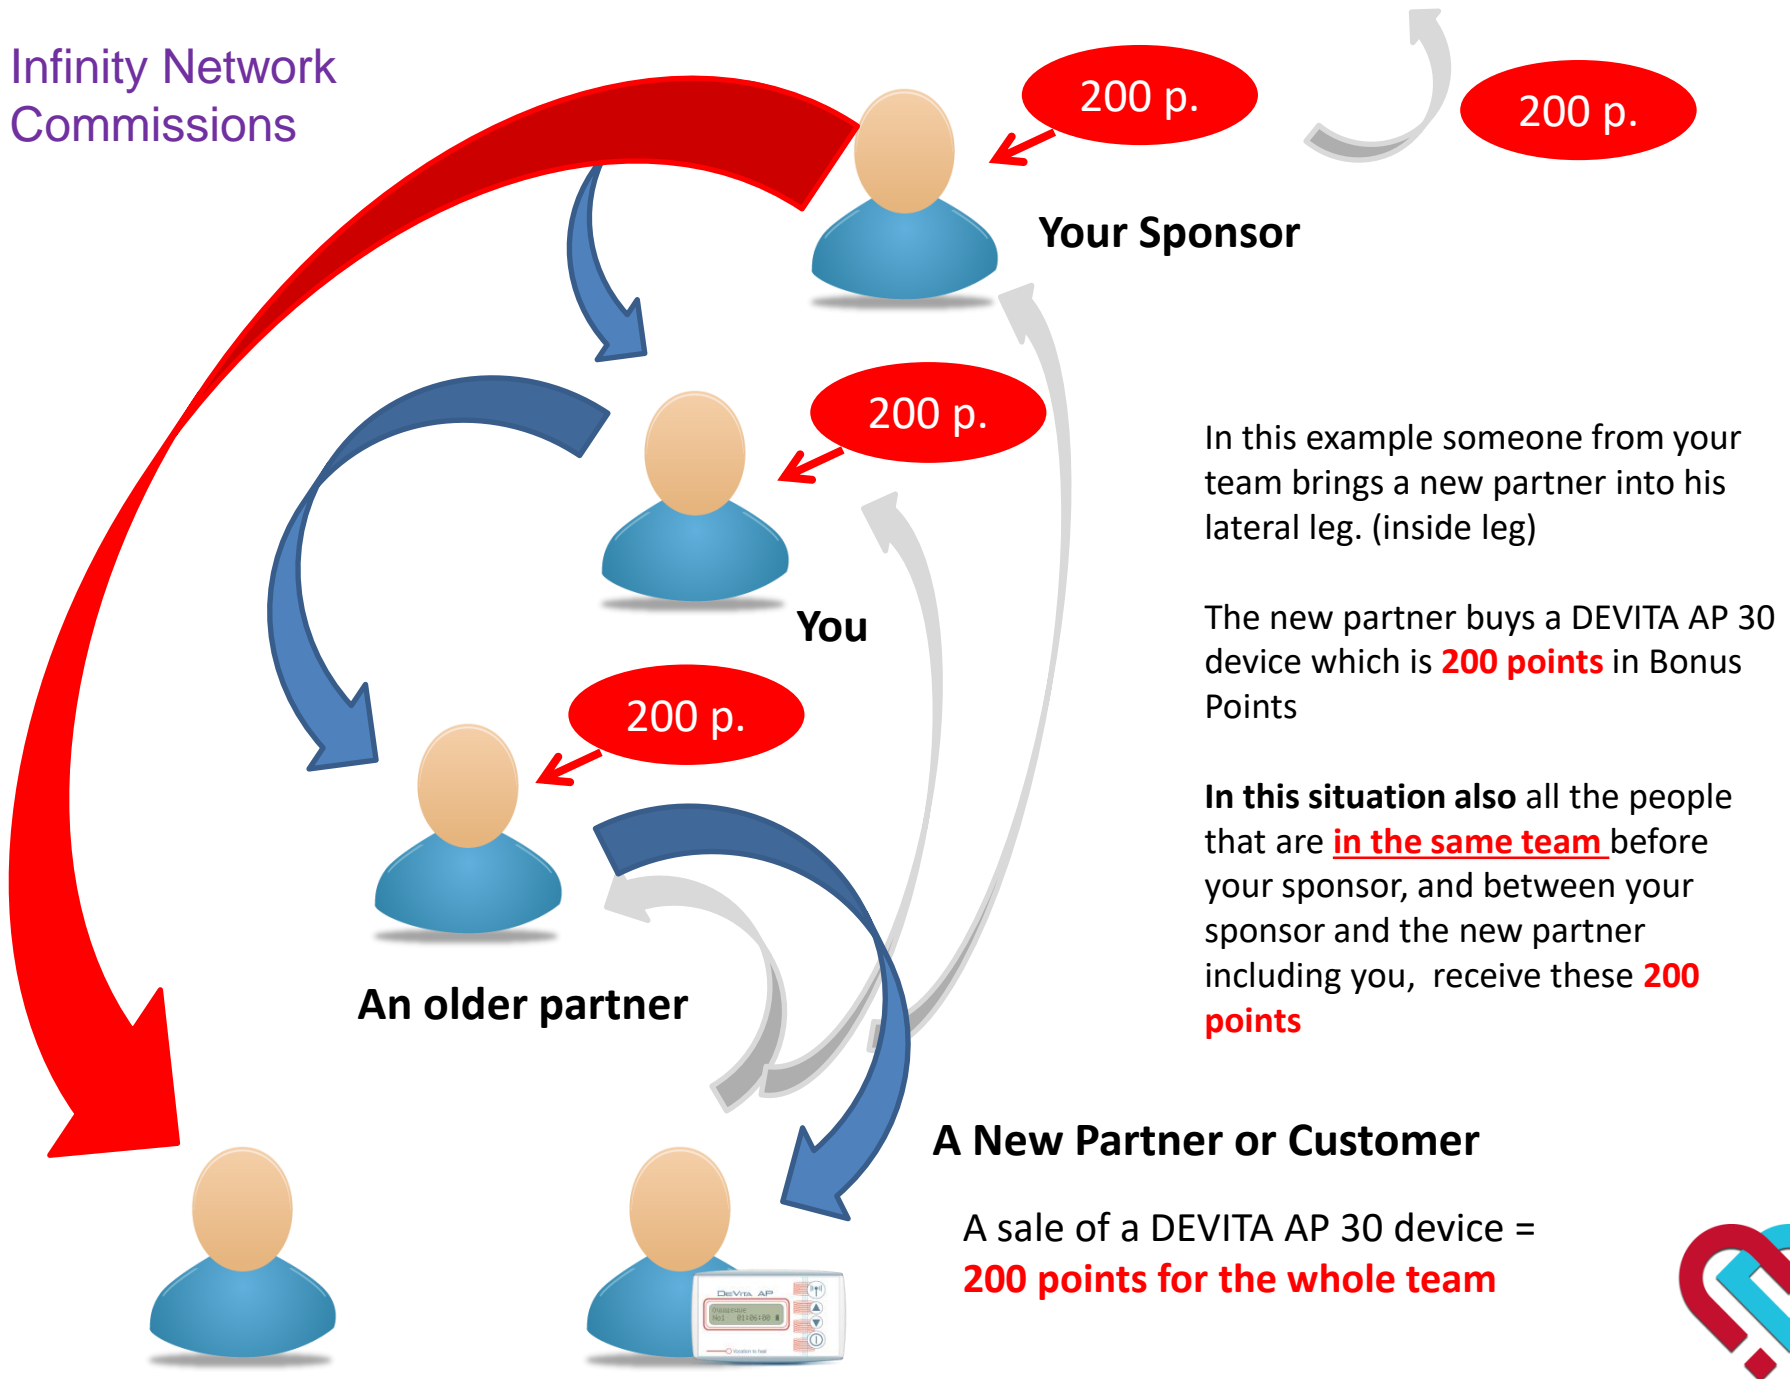

Everybody that belongs in the same team leg, takes the points of a sale into **Infinity Height** and into **Infinity Depth**

**You can see this more clearly
in the next slide**

Infinity Network Commissions

Infinity Network Commissions

In this example someone from your team brings a new partner into his lateral leg. (inside leg)

The new partner buys a DEVITA AP 30 device which is **200 points** in Bonus Points

In this situation also all the people that are in the same team before your sponsor, and between your sponsor and the new partner including you, receive these **200 points**

A New Partner or Customer

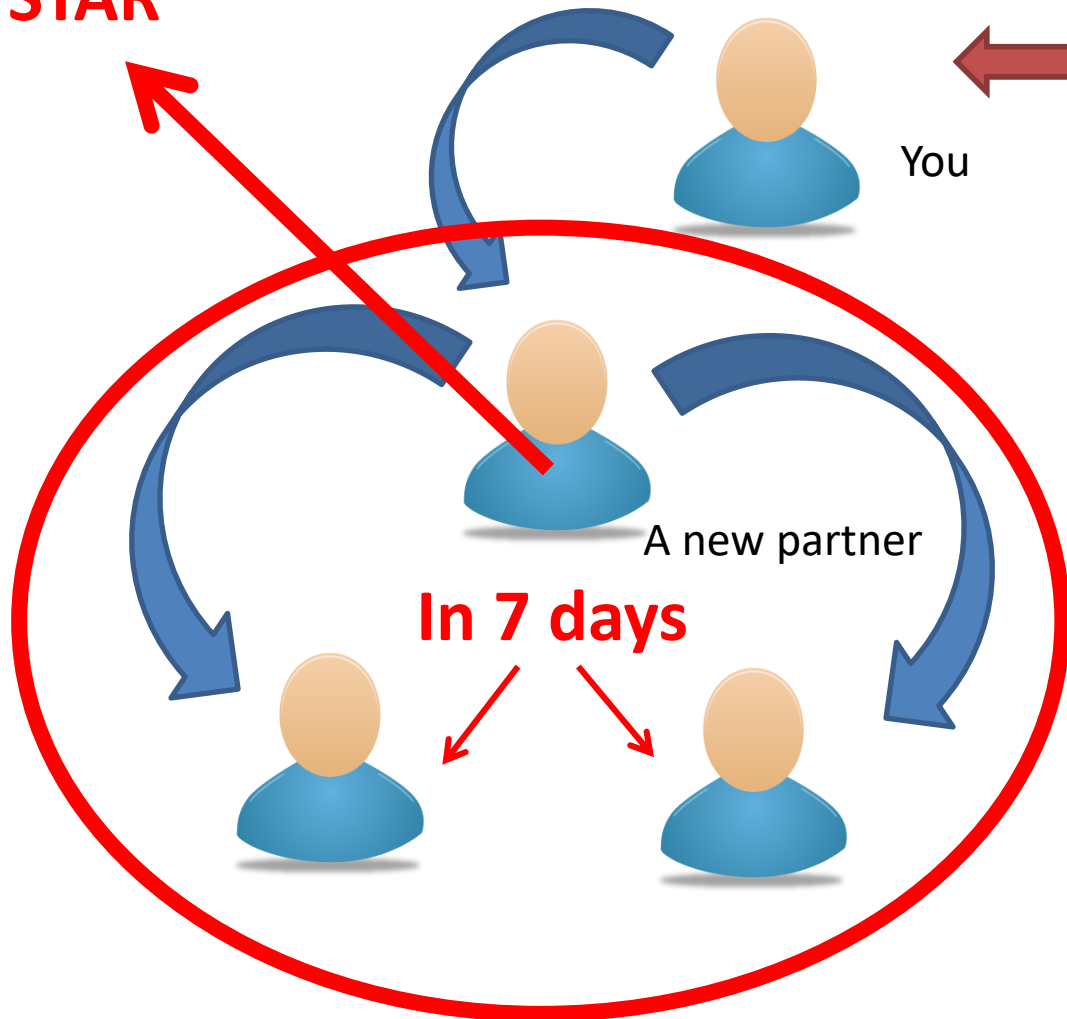

A sale of a DEVITA AP 30 device = **200 points for the whole team**

3. Star Bonus

STAR

37,50€

Extra bonus

Help your new partner to make **2 new ACTIVE partners in 7 days**, from the time they buy their device, and you will receive **Star Bonus Commission 37,50 euros**

After that, your partner's rank will be **STAR**

Why is the **STAR BONUS** so important
for the rapid & massive growth of
your team?

The Power of Binary Systems - Rapid Growth

(If every NEW partner invites 2 NEW partners per week, for only one time, to join the business and never invites anybody again)

Time	Partners
1 st week	2
2 nd week	4
3 rd week	8
4 th week	16
5 th week	32
6 th week	64
7 th week	128
8 th week	256
9 th week	512
10 th week	1,024
11 th week	2,048
12 th week	4,096
In a 3-month period	8,192 partners

The Power of Binary Systems Rapid Growth

(The same example with 2 partners invitation per month for one time – NOT per week)

Months	Partners
January	2
February	4
March	8
April	16
May	32
June	64
July	128
August	256
September	512
October	1,024
November	2,048
December	4,096
In a 12-month period	8,192 partners

In the **next table** you can see how you can receive commissions from the sales of **40,960** **products** in one year **although** you personally sold **only 5 products**

Applying the right strategy for your business
can change your results dramatically

If you teach every **NEW Business Partner** in your team to invite 2 partners his first month, and to sell only 5 products per year, and you teach him to teach the same to all his **NEW Business Partners etc.** you will have **in 1 year** the following results

Partners	Products sold
2	10
4	20
8	40
16	80
32	160
64	320
128	640
256	1,280
512	2,560
1024	5,120
2048	10,240
4096	20,480
In a 12-month period	40,960 products being sold from your team

Even if these customers bought the **cheaper product** of the company which costs **250 euros** with **100 bonus points** per product, you will have gathered in one year **4,096,000 points in your 2 teams volume** (4 million and 96 thousand points)

Some of your partners, will surely sell devices that have a lot more points - **125, 200, 250, 300, 900, 3000 points**

So this example is a modest one!

For example, according to the Star Bonus Strategy (applied per month), combined with the 5 sales per partner every year, **in 1 year from now**, you can have the following results:

If you have $\frac{1}{4}$ of the 4,096,000 points into your left team volume and the other $\frac{3}{4}$ points into your right team volume, you will have made **3,413 steps in one year** and you will have received \$341,300 in commissions

You will also have **682,900 points** remaining in your left team to collect in the future!
